

Letter of Recommendation
Karisma Joinery

When setting out to create Café Sydney, on top of Sydney's landmark building Customs House, we commissioned a world renowned interior designer and went to great lengths to select a competent and reliable interior contractor. As Café Sydney was designed to exacting standards and specifications it was imperative that we found an exceptional joinery company

We were recommended to employ the services of Karisma Joinery by a friend who is, in short, a perfectionist. He is a man who demands high standards of excellence, and professionalism.

We were not disappointed with his recommendation. Karisma Joinery, spearheaded by the amiable Joe Zarantenallo is an impressive organization. Their workmen are skilled, conscientious, dedicated, well organised and reliable. They operate a state of the art joinery shop enabling them to meet exact dimensions and specifications with 100 percent accuracy.

This was a major requirement in the fit out of Café Sydney and we are pleased to state they met our standards. Not only was the joinery built well it was completed ahead of schedule and on budget.

Karisma Joinery is not only a competent contractor but also a true pleasure to work with.

We have no hesitation in highly recommending Karisma Joinery.

International Restaurant Development Ltd,

Graeme J Reading
